Gloria KPANOU

Web developer & UI designer · motion design · *AI*

● AVAILABLE · REMOTE ROLE OR CONTRACTS · UTC+1

I design, code and ship complete websites, and I produce motion design videos. Founder of **CLAUDE ACADÉMIE**: a community of **100,000+ members** and digital products sold to **300+ customers in more than 30 countries**. AI (Claude, Claude Code) speeds up my work; every deliverable is reviewed, tested and owned. With a background in economics and management, I think in business results before technology.
